

“

Hello, welcome
to Sommers
Waste Solutions

”

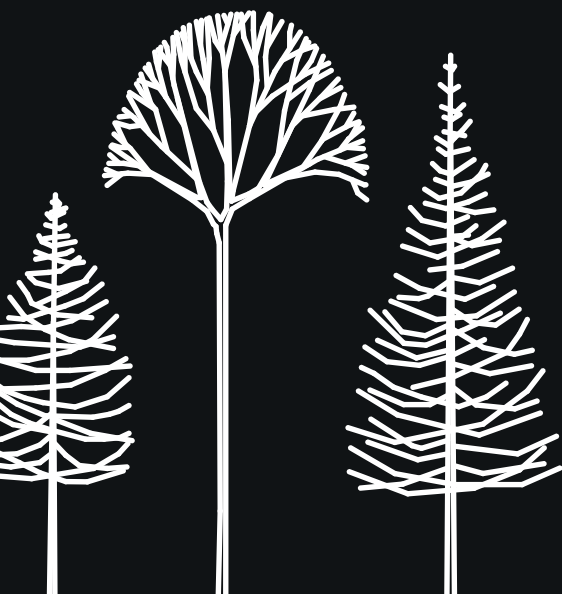

about us...

Sommers Waste Solutions (SWS) is a family led business with over 40 years' experience in the waste management industry. We really do care about each of clients and always strive to help them offering first class customer service as well as a professional, reliable and efficient service. We enjoy developing close relationships with our clients ensuring they receive the best service, save money where possible and achieve their environmental goals. Whichever sector your business is in, no matter how large or small we offer the same dedicated, personalised service to ensure your business runs as smoothly as possible.

SWS are a national waste management company offering a consolidated and bespoke approach. We provide fully integrated sustainable solutions and work closely with our national client base offering waste management solutions and complimenting products.

Sustainable and cost effective waste management, whilst ensuring compliance with complicated regulations requires specialist knowledge. It also takes up valuable time that could be better spent concentrating on core activities. Sommers Waste Solutions provide a cost effective and professional service to suit each company's individual requirements. Providing the Optimum Solution for you, your business and your future.

but don't just take our word for it...

“Sommers Waste Solutions have been our go to for well over a year now, everyone I have dealt with there has been helpful and proactive. Quite often with the nature of brewing we can put in requests for service with very quick turnarounds and SWS have always been able to accommodate us. Would highly recommend.”

**James Sawyer, Facilities Manager,
Camden Town Brewery**

“SWS has been our preferred waste management partner for the past five years and continue to give SLL and exemplary, professional and reliable service. I would highly recommend SWS for all waste management requirements as we feel that their attention to detail and focus on customer satisfaction is something unique and refreshing.”

**Martin Smith, Head of Facilities
Management, Stevenage Leisure Limited**

“I've worked with Sommers Waste Solutions for a number of years. The value they bring is tremendous, and their enthusiasm, proactivity, attention to detail and professionalism is second to none and this despite the difficulties of operating in the waste industry. Whenever I need flexibility, knowledge and support and great value for money I will recommend SWS. I know they care and will resolve any issues as they occur and my clients are happy with the outcomes.”

**Paul Foster, Principal Solutions Consultant,
Auditel**

online reporting, national coverage

Every business in the UK generates waste. At Sommers Waste Solutions we work with you to improve your environmental performance whilst helping you turn your waste into a resource.

A selected national network of approved and vetted suppliers enable us to offer a seamless national solution. Our impartial approach enables a bespoke solution linking waste collections to a wide variety of treatment processes.

Sommers Waste Solutions are able to provide a tailor built online reporting to capture all waste/recycling levels for easy access through our website.

This is updated on a regular basis to enable clients to keep a regular eye on their business's environmental performance in relation to waste management. Accurate reporting can be generated based on this data for our clients to use as part of their environmental and corporate social responsibility reporting.

Our business model and ongoing company ethos is continually evolving in conjunction with Circular Economy principles.

professional and bespoke

A Sommers Waste Solutions consolidated approach concentrates on the best environmentally sustainable solutions.

We work closely with our clients to gain an understanding of environmental aspirations whilst also understanding how best to integrate improvements to avoid disruption to core activities whilst embracing Circular Economy principles.
